| CMS 188 PN-6: Initial Antibiotic Selection for CAP in Immunocompetent Patients | v5 |
| CMS 190 VTE-2: ICU VTE Prophylaxis | v4, v5 |

Additional Software: The following additional software was relied upon to demonstrate this product’s compliance with the 2015 Edition certification criteria:

- W32TM v6.3.9600 for time synchronization
- Microsoft RDP v6.3 for remote server access

Additional Types of Costs: This product supports both on premise and SaaS implementation. Depending on method of implementation utilized, this certified product may require the following additional licensing/fees:

- SQL Server Enterprise licensing
- Dashboard / Presentation Layer licensing
- Data acquisition development costs for ETL integration

Limitations: There are no known limitations to meet meaningful use objectives and measures or to achieve any other use within the scope of this product’s certification.

This EHR Module is ONC 2015 Edition compliant and has been certified by ICSA Labs, an ONC-ACB, in accordance with the applicable certification criteria adopted by the Secretary of Health and Human Services. This certification does not represent an endorsement by the U.S. Department of Health and Human Services.
